

Wall cover guard was developed from the original Floor cover guard, in response to market demand for protection of all types of vertical wall and bulkhead finishes. It is made from flame-retardant polyethylene and is used during new building, refit and repair.

Part Numbers: CG0636TF/CG0672TF

General Applications

Temporary protection for all types of finished surfaces including walls, floors, bulkheads, weatherdecks and furnishings. Also suitable for wrapping, covering and containment.

		CG0636TF	CG0672TF
Description		Flame retardant polyethylene 6 mil taffeta	
Colour		cover guard Ocean Blue	
Finish		Flat sheeting, one side smooth and one side matt	
Roll Width	m	0.91	1.82
	inches	36	72
