

Safety Data Sheet

according to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830 Date of issue: 28-Oct-13 Revision date: 15-Dec-17 Version: 2.0

SECTION 1: Identification of the substance	mixture and of the company/undert	aking
1.1. Product identifier		
Product form : Mixtu	re	
Product name : Biom	arine III	
Product code : 0711	0	
	product must not be used in applications other the ut first seeking the advice of the supplier.	han those recommended in Section 1.2.1,
1.2. Relevant identified uses of the substance or	mixture and uses advised against	
1.2.1. Relevant identified uses		
Intended for general public		
Main use category : Cons	umer use	
Industrial/Professional use spec : Indus For p	trial rofessional use only	
1.2.2. Uses advised against		
No additional information available		
1.3. Details of the supplier of the safety data she	et	
Rock Oil 90 Priestley Street WA5 1ST Warrington - UK T +44 1925 636191 mail@rockoil.co.uk		
1.4. Emergency telephone number		
Emergency number : +44 1	925 636191	
SECTION 2: Hazards identification		
2.1. Classification of the substance or mixture		
Classification according to Regulation (EC) No. 1272/2	2008 [CLP]	
Not classified Adverse physicochemical, human health and environ	nental offects	
Not expected to present a significant hazard under anticip		
2.2. Label elements		
Labelling according to Regulation (EC) No. 1272/2008	[CLP]	
Security closing plug for children : Not a	pplicable	
Tactile warning : Not a	pplicable	
2.3. Other hazards		
	under normal conditions.	
SECTION 3: Composition/information on in	gredients	
3.1. Substances		
Not applicable		
3.2. Mixtures		
Name	Product identifier %	Classification according to Regulation (EC) No. 1272/2008 [CLP]
Phenol, (dimethylamino)methyl-, polyisobutylene derivs.	8.35 -	10.0033 Aquatic Chronic 3, H412
Distillates (petroleum), hydrotreated light	(CAS-No.) 64742-47-8 10 - 25	5 Asp. Tox. 1, H304
	(EC-No.) 926-141-6	

Safety Data Sheet

according to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830

4.1. Description of first aid measures	
First-aid measures general	: Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible).
First-aid measures after inhalation	: Assure fresh air breathing. Allow the victim to rest.
First-aid measures after skin contact	 Remove affected clothing and wash all exposed skin area with mild soap and water, followed by warm water rinse.
First-aid measures after eye contact	: Rinse immediately with plenty of water. Obtain medical attention if pain, blinking or redness persists.
First-aid measures after ingestion	: Rinse mouth. Do NOT induce vomiting. Obtain emergency medical attention.
4.2. Most important symptoms and effect	ets, both acute and delayed
Symptoms/effects	: Not expected to present a significant hazard under anticipated conditions of normal use.
4.3. Indication of any immediate medica Treat symptomatically.	I attention and special treatment needed
SECTION 5: Firefighting measures	
5.1. Extinguishing media	- Foom Dry nourder Carbon diavide Water enroy Cand
Suitable extinguishing media	: Foam. Dry powder. Carbon dioxide. Water spray. Sand.
Unsuitable extinguishing media	: Do not use a heavy water stream.
5.2. Special hazards arising from the su	
Hazardous decomposition products in case of fire	: Carbon monoxide. Carbon dioxide. fume.
5.3. Advice for firefighters	
Firefighting instructions	: Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire. Prevent fire fighting water from entering the environment.
Protection during firefighting	: Do not enter fire area without proper protective equipment, including respiratory protection.
SECTION 6: Accidental release meas	sures
6.1. Personal precautions, protective eq	uipment and emergency procedures
6.1.1. For non-emergency personnel	
Protective equipment	: Avoid contact with skin and eyes.
Emergency procedures	: Evacuate unnecessary personnel.
6.1.2. For emergency responders	
0, 1	- Fauin cleanup crow with proper protection
Protective equipment	: Equip cleanup crew with proper protection.
Protective equipment Emergency procedures	: Equip cleanup crew with proper protection. : Ventilate area.
Protective equipment Emergency procedures 6.2. Environmental precautions	: Ventilate area.
Protective equipment Emergency procedures 6.2. Environmental precautions	
Protective equipment Emergency procedures 6.2. Environmental precautions	: Ventilate area.
Protective equipment Emergency procedures 6.2. Environmental precautions Prevent entry to sewers and public waters. Notify	: Ventilate area.
Protective equipment Emergency procedures 6.2. Environmental precautions Prevent entry to sewers and public waters. Notify 6.3. Methods and material for containmental precautions	 Ventilate area. v authorities if liquid enters sewers or public waters. ent and cleaning up Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. Collect
Protective equipment Emergency procedures 6.2. Environmental precautions Prevent entry to sewers and public waters. Notify 6.3. Methods and material for containment Methods for cleaning up	 : Ventilate area. y authorities if liquid enters sewers or public waters. ent and cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. Collect spillage. Store away from other materials.
Protective equipment Emergency procedures 6.2. Environmental precautions Prevent entry to sewers and public waters. Notify 6.3. Methods and material for containmental precautions Methods for cleaning up 6.4. Reference to other sections See Heading 8. Exposure controls and personal	 : Ventilate area. y authorities if liquid enters sewers or public waters. ent and cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. Collect spillage. Store away from other materials.
Protective equipment Emergency procedures 6.2. Environmental precautions Prevent entry to sewers and public waters. Notify 6.3. Methods and material for containing Methods for cleaning up 6.4. Reference to other sections See Heading 8. Exposure controls and personal SECTION 7: Handling and storage	 : Ventilate area. y authorities if liquid enters sewers or public waters. ent and cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. Collect spillage. Store away from other materials.
Protective equipment Emergency procedures 6.2. Environmental precautions Prevent entry to sewers and public waters. Notify 6.3. Methods and material for containmental for containmental precautions Methods for cleaning up 6.4. Reference to other sections See Heading 8. Exposure controls and personal SECTION 7: Handling and storage 7.1. Precautions for safe handling	 : Ventilate area. y authorities if liquid enters sewers or public waters. ent and cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. Collect spillage. Store away from other materials.
Protective equipment Emergency procedures 6.2. Environmental precautions Prevent entry to sewers and public waters. Notify 6.3. Methods and material for containing Methods for cleaning up 6.4. Reference to other sections See Heading 8. Exposure controls and personal SECTION 7: Handling and storage	 : Ventilate area. y authorities if liquid enters sewers or public waters. ent and cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. Collect spillage. Store away from other materials.
Protective equipment Emergency procedures 6.2. Environmental precautions Prevent entry to sewers and public waters. Notify 6.3. Methods and material for containmental for containmental precautions Methods for cleaning up 6.4. Reference to other sections See Heading 8. Exposure controls and personal SECTION 7: Handling and storage 7.1. Precautions for safe handling	 Ventilate area. v authorities if liquid enters sewers or public waters. ent and cleaning up Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. Collect spillage. Store away from other materials. protection. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapour.
Protective equipment Emergency procedures 6.2. Environmental precautions Prevent entry to sewers and public waters. Notify 6.3. Methods and material for containing Methods for cleaning up 6.4. Reference to other sections See Heading 8. Exposure controls and personal SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe handling	 Ventilate area. v authorities if liquid enters sewers or public waters. ent and cleaning up Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. Collect spillage. Store away from other materials. protection. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapour.
Protective equipment Emergency procedures 6.2. Environmental precautions Prevent entry to sewers and public waters. Notify 6.3. Methods and material for containmental for containmental precautions Methods for cleaning up 6.4. Reference to other sections See Heading 8. Exposure controls and personal SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe storage, including 7.2. Conditions for safe storage, including	 Ventilate area. v authorities if liquid enters sewers or public waters. ent and cleaning up Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. Collect spillage. Store away from other materials. protection. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapour. ng any incompatibilities Keep container closed when not in use. Protect from moisture. Keep only in original container.
Protective equipment Emergency procedures 6.2. Environmental precautions Prevent entry to sewers and public waters. Notify 6.3. Methods and material for containment Methods for cleaning up 6.4. Reference to other sections See Heading 8. Exposure controls and personal SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe handling 7.2. Conditions for safe storage, including Storage conditions	 Ventilate area. v authorities if liquid enters sewers or public waters. ent and cleaning up Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. Collect spillage. Store away from other materials. protection. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapour. ng any incompatibilities Keep container closed when not in use. Protect from moisture. Keep only in original container. Store in a well-ventilated place. Keep cool.
Protective equipment Emergency procedures 6.2. Environmental precautions Prevent entry to sewers and public waters. Notify 6.3. Methods and material for containment Methods for cleaning up 6.4. Reference to other sections See Heading 8. Exposure controls and personal SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe storage, including Storage conditions Incompatible products	 Ventilate area. v authorities if liquid enters sewers or public waters. ent and cleaning up Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. Collect spillage. Store away from other materials. protection. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapour. ng any incompatibilities Keep container closed when not in use. Protect from moisture. Keep only in original container. Store in a well-ventilated place. Keep cool. Oxidizing agent. Strong bases. Strong acids.
Protective equipment Emergency procedures 6.2. Environmental precautions Prevent entry to sewers and public waters. Notify 6.3. Methods and material for containment Methods for cleaning up 6.4. Reference to other sections See Heading 8. Exposure controls and personal SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe storage, including Storage conditions Incompatible products Incompatible materials	 Ventilate area. v authorities if liquid enters sewers or public waters. ent and cleaning up Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. Collect spillage. Store away from other materials. protection. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapour. ng any incompatibilities Keep container closed when not in use. Protect from moisture. Keep only in original container. Store in a well-ventilated place. Keep cool. Oxidizing agent. Strong bases. Strong acids. Sources of ignition. Direct sunlight.

Safety Data Sheet

according to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830

SECTION 8: Exposure controls/personal protection		
8.1. Control parameters		
Biomarine III		
USA - ACGIH ACGIH TWA (mg/m ³)	5 mg/m ³ Refined mineral oil, mist	

8.2. **Exposure controls**

Appropriate engineering controls:

Ensure exposure is below occupational exposure limits (where available).

Personal protective equipment:

Gas mask with filter type A at conc. in air > 5 ppm. Gloves. Nitrile rubber gloves. In case of splash hazard: safety glasses. Avoid all unnecessary exposure.

Hand protection:

Where hand contact with the product may occur the use of gloves approved to relevant standards (e.g. Europe: EN374, US: F739) made from the following materials may provide suitable chemical protection. PVC, neoprene or nitrile rubber gloves Suitability and durability of a glove is dependent on usage, e.g. frequency and duration of contact, chemical resistance of glove material, dexterity. Always seek advice from glove suppliers. Contaminated gloves should be replaced. Personal hygiene is a key element of effective hand care. Gloves must only be worn on clean hands. After using gloves, hands should be washed and dried thoroughly. Application of a non-perfumed moisturizer is recommended. For continuous contact we recommend gloves with breakthrough time of more than 240 minutes with preference for > 480 minutes where suitable gloves can be identified. For short-term/splash protection we recommend the same, but recognize that suitable gloves offering this level of protection may not be available and in this case a lower breakthrough time maybe acceptable so long as appropriate maintenance and replacement regimes are followed. Glove thickness is not a good predictor of glove resistance to a chemical as it is dependent on the exact composition of the glove material. Glove thickness should be typically greater than 0.35 mm depending on the glove make and model.

Eye protection:

If there is a risk of liquid being splashed : Standard EN 166 - Personal eye-protection. Chemical goggles or safety glasses

Skin and body protection:

Wear suitable protective clothing

Respiratory protection:

In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate mask

Personal protective equipment symbol(s):

Thermal hazard protection:

Not specifically applicable.

Environmental exposure controls:

SECTION 6.

Other information:

Do not eat, drink or smoke during use.

SECTION 9: Physical and	d chemical properties	
9.1. Information on basic	physical and chemical properties	
Physical state	: Liquid	
15-Dec-17	EN (English)	3/7
