

## TECHNICAL DATA

### MP Plus Sport Semi Synthetic Engine Oil

MP PLUS Semi Synthetic engine oil is specially designed for use in all modern 4-Stroke outboards.

#### Features

MP Plus has been blended from the highest quality base oil with state-of-the-art synthetic additives to withstand the rigours of the marine environment

Provides excellent protection from low temperature start-up, to the high operating temperatures of high revving 4-stroke outboard engines

Advanced additive technology gives maximum protection whilst reducing deposits and corrosion on all components, ensuring longer engine life and optimum performance even in the most arduous of conditions

Suitable for use in both petrol and diesel outboards where a 10W-30 or a 10W-40 engine oil is recommended

MP Plus meets or exceeds the exacting demands of the following specifications:

API SL  
NMMA FC-W (Approval No: FC-W FB-00602J)

#### Typical Physical Characteristics

Viscosity Grade	SAE 10W-40
Density @15 C	0.871
Viscosity @40 C	97.5 cSt
Viscosity @100 C	14.2 cSt
Viscosity Index	148
Appearance	Clear amber liquid
Product Code	03117

Rev:C/10
