

TECHNICAL DATA

MPR Injector

A fully synthetic 2 stroke marine lubricant made from a variety of different synthetic base stocks including Polyol Esters and Poly Iso Butylenes which have been successfully coupled with advanced additive technology.

Features

- Smokeless
- Easy Mixing
- Ultra Clean Burning
- High Lubricity - preventing oil induced piston seizures
- High Shear Stability - Low Wear Rates
- Excellent fluidity

MPR Injector is one of a range of dedicated leisure marine lubricants. This product is most suited for use in an injector system but has successfully been used as a premix oil.

CAUTION

MPR Injector must not be used with castor based oils.
MPR Injector will mix with Leaded or Unleaded Petrol, Avgas and Octane Boosters but not Methanol.

MPR Injector Exceeds The Following Specifications:

- JASO FD & FC
- ISO-L-EGD
- API TC
- ROTAX 253
- HUSQVARNA 346 & 372

MPR Injector meets the requirements of SEA-DOO jet skis and other Rotax engined marine equipment.

Typical Physical Characteristics

Density @ 15C	0.878
Viscosity @ 40C	67.1 cSt
Pour Point	<-30 C
Appearance	Clear yellow liquid
Product Code	07137

Ref:H/12
